A MODULAR DESIGN. **NUMEROUS APPLICATIONS.**

EQUIPMENT Orange peel grab Clamshell grab Magnet K10 ULM K10 K11 K11 ULM K12 **K** = Compact boom **ULM** = Equipment with tipping kinematics, e.g. for sorting grabs

WHAT DOES YOUR MACHINE LOOK LIKE?

More than 16,000 unique material handling solutions can be delivered through SENNEBOGEN's modular machine design – watch the video now!

www.sennebogen.com/versatility

Everything in view

The spacious cab with panoramic view gives you a practical overview of your work area. The safety cameras provide support and allow you to monitor the critical areas conveniently via the monitoring system in the cab.

Easy control

The intelligent SENCON control system gives you quick and easy feedback on the machine's condition. Thanks to the intuitive user interface, it has never been easier to monitor energy consumption and utilization, control the desired working modes and contribute towards reducing operating costs.

Pleasant indoor climate

Whether in warmer areas or subzero temperatures, you can enter a work space with a comfortable temperature every day and concentrate on the essentials of work thanks to pleasant heating and air conditioning.

Individual operator profiles

Personalize and save settings for individual operators: climb in – get going.

"With the new Maxcab, we have once again implemented customer requirements: for maximum ease of use."

CORNELIUS STROBL, Head of the Scrap and Recycling Business Unit

For your health

The back-friendly comfort seat with reinforced suspension, adjustable armrests and optimally arranged control elements make everyday work even easier. With the convenient control panel, you can now reach many functions even faster and the ergonomic joysticks are comfortable to hold – in an award-winning design!

1. Reduce service costs

The dashboard is used to monitor the machine and its main operating parameters (temperatures, consumption). If key figures deviate significantly from the target value, the user is informed immediately.

2. Reduce consumption

You will receive daily updated insights into your fleet processes: easily identify and optimize times when machines are idle or change set parameters when machines are underloaded to reduce consumption.

"What if you could receive real-time data from all your machines with just one click and so increase your productivity? SENNEBOGEN's SENtrack telematic system makes this possible. The monitoring tool is now installed as standard in the G series!"

3. Improve productivity

With just a few clicks, you can identify and optimize machine capacity, analyze routes if required and thus make your port processes more profitable.

✓ 4. Safeguard your investment

Practical alarm messages inform you about critical machine conditions. In the event of irregular movements, the machine can also easily be deactivated remotely.

MAINTENANCE AND SERVICE.

KEEP IT SIMPLE. WITH MANAGEABLE TECHNOLOGY.

Reliable and practical technology makes life easier. We rely on hydraulics, electrics and electronics only where they provide the greatest benefit.

We make you happy, not reliant. With cost-effective components and fewer process steps, you can take care of the machine on your own.

The central electrical distributors and electronic modules facilitate maintenance and service, and are protected against environmental influences thanks to the large-scale e-box.

The SENCON control system supports you with diagnostics so that your machine is back in action more quickly.

All maintenance and service points are clearly arranged and easily accessible. The clear labeling of components makes finding your way around easy.

TECHNICAL DATA, EQUIPMENT

MACHINE TYPE MODEL (TYPE) 824 G

DIESEL ENGINE ***		
TYPE	Stage V: Cummins B4.5 Rated power: 123 kW/2200 rpm Operating point standard: 123 kW/2200 rpm Operating point ECO: 126 kW/2000 rpm	
	Automatic idle/stop	
COOLING	charge air cooling, coolant cooling	
DISPLACE- MENT	4,5	
NUMBER OF CYLINDERS	4	
BATTERIES	2 x 110 Ah / 750 A, battery disconnect switch	
ELECTRICAL SYSTEM	24 V	
OPTIONS	Engine block heater	
	Electric fuel pump	
	Jump start pole	
	Cyclone pre-separator for use with high dust loads	

UPPERCARRIAGE	
DESIGN	Torsion-resistant box design, precision crafted, steel bushings for boom mounting, service-friendly design, engine installed in the longitudinal direction
COOLING SYSTEM	Cooling system with a hydraulically driven fan for coolant cooling, charge air cooling and hydraulic oil cooling; demand-driven, thermostatic control incl. fan reversal
OPTIONS	LED lighting package
	Swing bearing brake via foot pedal
	Fire extinguisher
	Low temperature packages
	Hydraulic tank preheating
	15 kW magnetic generator
	Additional ballast 1 t
	Comprehensive uppercarriage railings
	Platform with railing next to cab
	Warning beacons and alarm horns

TANK CAPACITIES		
FUEL	300	
ADBLUE	30	
HYDRAULIC TANK	240	
COOLANT	approx. 40 l	
ENGINE OIL	approx. 18 l	
CENTRAL LUBRICATION SYSTEM	Automatic central lubrication for equipment and slewing ring, display of fault and empty message via SENCON	

TECHNICAL DATA, EQUIPMENT

Load-sensing / work functions	LUDV hydraulic system, electro-hydraulic
OPERATING PRESSURE	up to 350 bar
CONTROL SYSTEM	Proportional, precision electrical control of work movements, 2 electric joysticks for work functions, additional functions via switches and foot pedals
SAFETY	Hydraulic circuits safeguarded with safety valves
	Pipe-fracture safety valve for stick and compact boom as standard
	Emergency lowering of the equipment in case of engine standstill
OPTIONS	Bio-oil filling
	Tool Control for programming pressure/ rate of up to 10 tools
	Load torque warning with capacity display
	Overload safeguard with shutdown
	SENNEBOGEN HydroClean micro-filter system (3 µm) with water separator
	Supplementary hydraulic circuit for shear attachment

SLEWING D	RIVE
GEARBOX	Planetary gears with axial piston engine, integrated brake valves
PARKING BRAKE	Spring-loaded, hydraulically ventilated multi-disk safety brake
SLEWING RING	Internal toothing, strong ball bearing slewing ring, sealed
SLEWING SPEED	0-8 rpm
TORQUE	60 kNm

TECHNICAL DATA, EQUIPMENT

CAB*	
CAB TYPE	Maxcab, 2.8 m elevation
CAB FEATURES	Sliding door incl. sliding window, vibration-damped, tinted safety glass, bullet proof glass on windscreen, safety glass on side windows, skylight, windscreen wiper, roller sunblind on windscreen and skylight, integrated microphone for hands-free system, radio preparation, air-suspended comfort seat, heating/air-conditioning system with fresh air filter and recirculating air filter, joystick steering (mobile version), SENCON
OPTIONS	Maxcab Industry, continuous bullet proof glass pane
	Protective roof guard, FOPS if applicable
	Protective front guard
	Active carbon filter for outside air
	Auxiliary heating system
	Air-conditioned comfort operator's seat
	Radio (DAB), with MP3 and Bluetooth® function, hands-free system
	Cooling box
	Multifunctional armrests

UNDERLARRIAGE MUBILE	UNDERCARRIAGE MOBILE	
----------------------	----------------------	--

MP21 mobile undercarriage with integrated 4-point outrigger, steering axle with automated pendulum axle, pendulum axle cylinder with pipe fracture safety valve, all-wheel drive powered by an adjustable hydraulic motor with external, automatically actuated brake valve and 2-stage power shift transmission, planetary axles with integrated steering cylinders, 1-way accelerator pedal, service brake with 2-circuit system, multi-disc brake as parking brake

TIRE TYPE	8 x 10.00-20
BRAKES	hydraulic
TRAVEL SPEED	0-20 km/h variable
OPTION	Up to 1 m pylon
	Support plate
	Stabilizer blade
	Pneumatic tires

UNDERCARRIAGE CRAWLER

R25/240 crawler undercarriage in stable, torsionally rigid box construction with hydraulic travel drive, hydraulically ventilated, spring-loaded multi-disc brake as parking brake

TRAVEL	SPEED	0-4,0 km/h

OPTION 700 mm triple grouser s	shoes
--------------------------------	-------

Pressurized cab

30° tiltable cab

Steering wheel control

External operator panel

Sun protection packages

TECHNICAL DATA, EQUIPMENT

	<u> </u>
RANGE	up to 12 m
CYLINDERS	Hydraulic cylinders with high-quality sealing and guide elements, end position damping, sealed mounting points
OPTIONS	LED lighting package
	Height and reach limitation
	Stick mounted camera
	Equipment type "ULM" with tipping kinematics
	Boom damping

OPERAT	ING WEIGHT 🔼
MASS	Mobile
	24.9 t with MP21 and K10 incl. attachment
	Crawler
	27.1 t with R25/240 and K10 incl. attachment
NOTE	Operating weight varies by model and equipment.

All load ratings are given in tons (t) brought to bear at the end of the stick, without tools on firm level ground. Working tools such as grab, magnet, load hook etc. are included in the specified load ratings. The stated values are 75 % of the static tipping load or 87 % of the hydraulic lifting force according to ISO10567. According to EU standard EN 474/5, hydraulic material handlers used for hoisting must be equipped with a pipe rupture safety device on lifting and stick cylinders and an overload warning device. Load ratings apply to a machine with 4-point outrigger and for 360° slewing. The load ratings in brackets [] apply when the oscillating axle is blocked, unsupported, (free-standing) and for 360° slewing.
